

Leading Edge-Yunesit'in Value Added Woodwork Trainees

Status: Six (6.0) Full time Temporary Trainee Positions
Reporting to: Training Coordinator
Salary: To be negotiated pending experience

Summary

Yunesit'in is passionate about promoting a "forest to frame" concept using Yunesit'in resources. The positions as advertised will have an opportunity to be involved in the Yunesit'in dream of moving Yunesit'in timber through a process that includes harvesting, milling at the Yunesit'in sawmill and modification at the Yunesit'in Leading Edge site into value added wood products. Ultimately, the process will result in Yunesit'in homes constructed with an abundance of Yunesit'in products.

Yunesit'in Leading Edge, located in Horsefly, is a value-added milling facility which can produce timber for homes and a variety of custom wood products. Yunesit'in Government will engage a minimum of six trainees to work at the Leading Edge site and various other locations to engage in producing and utilizing value added wood products including posts and beams. At the completion of the program, trainees will have competencies that will make them successful additions to sawmill operations, wood working operations and timber frame construction operations.

Knowledge, Skills and Abilities

As a "trainee", you will have a positive attitude and demonstrate a willingness to learn. Working with others in various settings is a mandatory requirement. As a trainee, you will be assigned a wide variety of tasks in the wood working field; and, be exposed to an assortment of trainers with different levels of experience and knowledge.

Transportation

Transportation will be provided from Williams Lake to other locations (Horsefly)
